Education

Symbiosis Institute of Technology, Nagpur Aug 2024 – Present
B.Tech in Computer Science and Engineering (Data Science and Analytics) – CGPA: 8.2 *Nagpur, India*

Class 12 – Science Mar 2022 – Mar 2024
Higher Secondary Education – Percentage: 72% *Nagpur, India*

Internship

Kalika Technologies 20 May 2026 – 20 Jun 2026
Lead Software Intern – CAN Telematics for GVTFMS

- Led software work on a CAN-based vehicle telematics platform for the **Government Vehicle Tracking and Fuel Management System (GVTFMS)**, a problem statement led by Government of Chandrapur.
- Conducted machine learning research to evaluate suitable approaches for computing a **Vehicle Health Score** and a **Driver Safety Score**.
- Implemented a **fuzzy logic** scoring model suited to imprecise, rule-driven vehicle and driving parameters, and validated it on simulated telematics data as the product was in its build phase and real fleet data was not yet available.

Projects

Blockchain Patient Data Management System | *Python, HTML, CSS, SQL, Stack Algorithm* Aug 2025

- Developed a blockchain-integrated patient record system ensuring immutable and verifiable medical data storage.
- Implemented secure authentication with hashed passwords and session management, reducing risks.
- Designed a scalable architecture separating database storage and blockchain hash verification, simulating real-world healthcare compliance systems.

Anti-Spoofing and Real-Time Interview Analysis System | *Python, OpenCV, MediaPipe* Jan 2026

- Designed and implemented a real-time interview monitoring system with anti-spoofing mechanisms including liveness detection, facial recognition, and behavioral analysis.
- Enhanced online interview security and candidate authenticity verification by detecting spoof attempts and monitoring candidate behavior during interviews.

ContractGuard | *Python, NLP* Jul 2026 – Present

- Developing an **NLP-based contract risk analysis system** that analyses contract text to identify and flag potentially risky clauses.
- Designing the system to help users review contracts faster by highlighting risk areas for closer attention.

Technical Skills

Languages:	Python, C, Java, HTML, SQL
Developer Tools:	VS Code, Eclipse, MySQL, SQL*Plus, GitHub, Anaconda Navigator
Technologies/Frameworks:	NumPy, Pandas, OpenCV (cv2), MediaPipe, Matplotlib

Positions of Responsibility

Student Placement Representative Present
Placement Cell, Symbiosis Institute of Technology, Nagpur *Nagpur, India*

- Appointed by the Placement Cell to represent the student body and act as a liaison between students and the placement team.

Certifications

- Microsoft Data Visualization – Coursera
- Python Programming – Red Hat
- Data Structures – Infosys Springboard
- All Certificates Folder – Google Drive
